

"la Caixa" Foundation

La Caixa – Severo Ochoa International PhD Fellowship Programme

Four fellowships are offered at the ICMAT for talented young mathematicians from around the world

La Caixa Foundation promotes careers in science and research and offers four opportunities for the best young graduate math students from around the world to undertake their PhD at the ICMAT, the only Spanish mathematics research center distinguished with the Severo Ochoa Award for excellence.

Starting on september 2014 successful candidates will receive a competitive stipend for 4 years of research, culminating with the completion of their PhD thesis.

Interested candidates will find further information at: www.icmat.es
Deadline for submission is on the 18th of February 2014
