

Kornélia Héra, Hausdorff Postdoctoral Fellow, University of Bonn
<https://sites.google.com/view/korneliahera/home>

Dr. Héra is currently a Hausdorff Postdoctoral Fellow funded by the Hausdorff Center for Mathematics at the University of Bonn. Previously she was a Research Fellow at the Alfréd Rényi Institute of Mathematics in 2022-2023 and a Dickson Instructor at the University of Chicago between 2019 and 2022. She completed her PhD in 2019 at Eötvös Loránd University in Budapest under the supervision of Tamás Keleti. Dr. Héra's research interests include various topics in geometric measure theory, fractal geometry, and harmonic analysis.
